Name: Natasha Saldanha.

USN: 4AL19CS057.

Algorithm:-

0) int main()

1) start

2) Struct student s i

3) Read s1.name, s1.age.

4) display (s1)

5) return 0

6) Stop.

void display (struct student s)

1) Start

2) Print s, name, s.age.

3) stop.

flowchart

int main()

```
        ( start )
            |
            v
   /------------------/
  /  Print S.name    /
 /   S. age         /
/------------------/
            |
            v
   +------------------+
   | display (st)     |--------> ( stop )
   | return 0         |
   +------------------+
```

void display (struct student s)

```
        ( start )
            |
            v
   +------------------+
   | print s.name,    |--------( STop )
   | s.age            |
   +------------------+
```
